Projects

CRUD Application 🔄

August 2024

- The application allows users to perform basic CRUD (Create, Read, Update, Delete) operations on data through a user-friendly interface.
- Users can add new records to the database, view a list of records stored in the database, edit existing records, and remove records from the database.
- Technologies Used: **HTML, CSS, React.js, Node.js, Express.js, MongoDB**

E-Commerce Dashboard 🔄

february 2024

- Developed a comprehensive E-commerce Dashboard, featuring key functionalities such as product management, user authentication, and dynamic content rendering.
- Demonstrated expertise in full-stack development by architecting an end-to-end E-commerce Dashboard, integrating user-friendly features like product listing, authentication, and registration functionalities using React.js, Node.js, and MongoDB.
- Technologies Used: **HTML, CSS, React.js, Node.js, Express.js, MongoDB**

Technical Skills

Languages: Java, HTML/CSS, Javascript

Frameworks: React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, Github, VS Code
